

Arxis Technology Honored as One of the 2009 VAR Stars

Arxis Technology Achieves VAR Stars Status

Los Angeles, CA ([PRWEB](#)) December 1, 2009 -- Arxis Technology, Inc., a technology consulting firm specializing in the sales, installation, and support of Sage Accpac ERP, Sage MAS 90, Sage MAS 200, Sage MAS 500, SageCRM and QuickBooks Enterprise, has been named to Bob Scott's 2009 VAR Stars. Arxis Technology joins a group of 100 organizations honored for their accomplishments with mid-marketing financial software.

“This award is made to honor organizations for factors such as quality performance and leadership in their arena. It is made without regard to the volume of annual sales made by these businesses, although their ability to achieve notable growth is considered,” says executive editor Bob Scott.

This is the first year that the award has been made by Bob Scott's Insights, a weekly electronic newsletter and companion Web site. However, Scott has been providing information, analysis and humor to value-added resellers and suppliers of mid-market accounting software since 1991 and has been involved in the awarding of previous industry honors.

Scott, who was editor of the former Accounting Technology for 12 years, is also executive editor of another Progressive Media Group publication, The Progressive Accountant, which is available at www.progressiveaccountant.com. Bob Scott's Insights is available at www.bobscottinsights.com.

David Cieslak, Arxis Principal, commented, “We're honored to be included in the inaugural VAR Stars list! Having a respected industry analyst like Bob Scott select us as one of the Top 100 is a rewarding validation of the success we've experienced providing technology solution for small- and mid-sized businesses.”

About Arxis Technology, Inc.
