

Plan, Track & Manage People & Projects with Unanet's Project Portfolio Management Solution

Unanet project management software helps over 750 organizations reliably plan, track and manage people and projects. Unanet's software is highly functional, easy to use, and offers a low Total Cost of Ownership (TCO). Additionally, Unanet provides superior implementation, training services, and has unparalleled customer support.

Power Your Business

- Real-time visual insight into the progress and performance of your projects and people
- Optimize resources based on availability, skills and budget
- Staff projects for the long and short term using resource requesting or spreadsheet-like grid planning
- Improve accuracy, time, and costs for timesheet and expense report data; capture via the web
- Maximize revenue with utilization and revenue forecasts
- Enhance project management, budgeting and real-time reporting
- Integrate with existing accounting, payroll and ERP systems
- Report on direct and indirect project costs, and project profitability in real-time
- Manage the entire bid-to-bill life cycle with revenue recognition and invoicing
- Manage and report on Time & Materials, Fixed Price, Pre-Bill and Cost Plus Projects

The Unanet Solution Provides

- Opportunity & Project Management
- Resource Scheduling
- Forecasting & Budgeting
- Gantt Charts & Projects Reporting
- Invoicing and Revenue Recognition
- Skills Management
